FULL STACK DEVELOPER

SUMMARY

As a seasoned Full Stack Developer, I bring a unique background as a former Project Manager who successfully led a team of 15 individuals. After overcoming challenges related to war, I immigrated to Canada, prompting a pivotal career shift towards the dynamic field of IT. Over a span of 11 intensive months, I immersed myself in courses to acquire expertise as a Full Stack Developer, combining my leadership acumen with hands-on technical skills. Proficient in JavaScript, React, Next.js, Node.js, Redux, HTML, and CSS, with additional familiarity in TypeScript and Tailwind CSS. My enthusiasm for learning extends to embracing new technologies.

TECH SKILLS

- HTML
- CSS
- JavaScript
- React.js
- Next.js
- Node.js
- Responsive design
- Tailwind CSS
- Redux
- Asynchronous Redux
- Express
- MongoDB
- Mongoose

SOFT SKILLS

- Adaptability
- Problem-solving
- Organized
- Self-motivated
- Cooperative
- Diligent
- Flexible

PROJECT EXPERIENCE

Power Pulse GitHub-repository (JavaScript, React, Redux, HTML, CSS)

Power Pulse (back end) GitHub-repository (Node.js, Express, MongoDB, Mongoose)

Role and Responsibilities:

- Collaborated with other developers.
- Utilized the Redux Toolkit for full interaction with the backend.
- Developed key sections and components of the application, including the 'Welcome' page, 'Sign In' page, 'Sign Up' page, 'Products' page, and 'Header' component, Implemented both private and public routes.

Skills Demonstrated:

- Proficiency in React for building the frontend.
- Knowledge of state management with Redux Toolkit.
- Experience in creating various pages and components.
- Implementation of responsive web design.
- Backend development using Node.js, Express, MongoDB, and Mongoose.
- Routing for both public and private sections of the application.

Cinemania GitHub-repository (JavaScript, HTML, CSS, Parcel)

Role and Responsibilities:

- Assisted team members.
- Performed troubleshooting and code reviews.
